

ASSISTIVE TECHNOLOGY ON THE FARM

High-Tech Options for Farming with a Disability,
Health Condition, or Functional Limitation

Assistive technology (AT) is any item, piece of equipment, or product system – whether acquired commercially, modified, or customized – that is used to increase, maintain, or improve the functional capacities of individuals with disabilities.

*AgrAbility PA does not provide or sell these items. This is for educational purposes only.
In addition to online, items may be available at hardware stores or local equipment dealers.*

AgrAbility for Pennsylvanians Project is supported under USDA/NIFA Special Projects 2021-41590-34811 in collaboration with Penn State Extension. Penn State College of Agricultural Sciences research and extension programs are funded in part by Pennsylvania counties, the Commonwealth of Pennsylvania, and USDA. Penn State is an equal opportunity, affirmative action employer, and is committed to providing employment opportunities to all qualified applicants without regard to race, color, religion, age, sex, sexual orientation, gender identity, national origin, disability, or protected veteran status. UCP Central PA assures equal opportunities for all individuals regardless of age, sex, race, color, religious creed, ancestry, national origin, disability, handicap, sexual preference, life style, political belief, union membership, limited English proficiency, and any other class of individuals protected from discrimination under state or federal law.

AgrAbility PA is a statewide partnership between Penn State Extension and UCP Central PA. Where trade names appear, no discrimination is intended, and no endorsement by Penn State Extension is implied.
